

PRESS RELEASE
November 2nd 2011

Acando continues to modernise the Norwegian Labour and Welfare Service (NAV)

Acando and the ICT Department at the Norwegian Labour and Welfare Service (NAV) have signed a framework agreement in the area of enterprise architecture and concept specifications. The new agreement is a continuation of the collaboration started in 2009.

"Acando has been providing expertise in enterprise architecture for large public agencies like NAV, the justice sector, the health sector and the Norwegian Public Roads Administration for a long time, to mention just a few. These extensive projects are essential for the functioning of modern public agencies. Acando is once again happy to be chosen as the supplier of expertise for such an important task, said Petter Sævik, chief architect and head of consultancy at Acando AS.

Acando will continue its collaboration with Orchestration AS and Commitment AS as subcontractors. Both these companies will supplement and complement Acando's capabilities. This collaboration allows Acando to offer NAV a contract at the highest level of professionalism with the best methodologies and the ability to deliver the best results.

This agreement runs for 2 years starting November 1st 2011, with the option of extending the contract for another 2 years.
