Perstorp chooses Acando as partner for SAP roll out

Acando has been elected Perstorp's implementation partner in the upcoming roll out of Perstorp's SAP solution to the unit in Great Britain. The implementation comprises SAP Best Practices for Chemical Industries and will be conducted in close cooperation with Perstorp's own Global ERP Team.

Also, towards the end of last year, an application management agreement was signed between the parties. The application management agreement covers Perstorp's SAP system.

The Perstorp Group is a world leader in several sectors of the specialty chemicals market. The products are used in the aerospace, marine, coatings, chemicals, plastics, engineering and construction industries. They can also be found in automotive, agricultural feed, food, packaging, textile, paper and electronics applications.

"Acando has proven to be responsive, flexible and to have enough global coverage. This, together with their professionalism and a size, where Perstorp becomes a visible customer, resulted in the definitive choice for Acando", says Susanna Frennemo, CIO, Perstorp AB.

"We have had the privilege to work with Perstorp to different extent for a couple of years, and see the expanded trust as a proof of a well functioning cooperation", says Eva Sandberg, Business Area Manager SAP at Acando.
