The Annual General Meeting (AGM) resolved the adoption of the Income Statement and Balance Sheet and the Consolidated Income Statement and Consolidated Balance Sheet for 2015. The AGM also resolved the appropriation of the Company's profits according to the adopted Balance Sheet. Determination of policy for the appointment of members of the Nominating Committee

The AGM resolved that the Nominating Committee will be composed of the Chairman of the Board and at least two representatives of the largest shareholders in accordance with the principles suggested by the Nominating Committee.

Authorisation of a new share issue

The AGM resolved to authorise the Board to decide on a new issue of class B shares to the degree that such issue may take place without the Articles of Association being amended. Furthermore, the board's utilisation of such authorisation may not imply that the total increase in share capital exceed 10 percent of the registered share capital at the point in time the board should utilise the authorisation for the first time. Shares may be issued with the condition that new shares may be paid with capital contributed in kind or by set-off. Accordingly, the authority shall not include the right for the board to resolve on a new cash issue. The issue may take place with waiver of shareholders' preferential right. The authorisation may be utilised upon one or several occasions up until the next AGM. The issue price shall correspond to the share's appraised market value. The reason for shareholders' preferential rights being able to be waived is to enable the Company to issue shares in conjunction with the acquisition of companies or business activities. In connection with such acquisitions, the board of directors is, however, not entitled to combine the authorisation with the authorisation regarding transfer of own shares of class B in such way that the total number of shares

of class B that is paid in connection with acquisitions made through issues in kind exceeds 10 percent of the registered share capital.

Authorisation for the Board of Directors to repurchase and transfer treasury shares

The AGM resolved to authorise the board, up until the next AGM, on one or several occasions, to resolve the acquisition and the transfer of own class B shares with waiver of shareholders' preferential rights. Acquisitions may be made only through Nasdaq Stockholm within at each time prevailing share price interval (meaning the interval between the highest bid price and ask price), and the number of shares acquired must not be so great that the Company's holding of its own shares exceeds 10 percent of all shares in the Company. Acquisitions may only take place to the degree that they are justifiable in light of the Swedish Companies Act's prudence concept. Transfers may be made as payment of all or part of the purchase consideration upon the acquisition of companies or business activities, upon which the consideration shall correspond to the share's estimated market value. In the latter case, payment may be made through capital contributed in kind, in the form of shares or business property, or through a set-off against claims against the company. Transfers may not be made through Nasdaq Stockholm. In connection with such acquisitions, the board of directors is, however, not entitled to combine the authorisation with the authorisation regarding issue of shares of class B in such way that the total number of shares of class B that is paid in connection with acquisitions made through issues in kind exceeds 10 percent of the registered share capital.

Share Savings Program 2016

The AGM resolved in accordance with the Board's proposal on the share saving program 2016 ("the Program") for senior executives and other key employees within the Acando Group. The Program has a similar structure to the share savings program approved by the annual general meetings ("AGMs") held in 2008, 2009, 2010, 2011, 2012, 2013, 2014 (and extra general meeting 2014) and 2015.
